

# INTELLIGENT PROTECTION FRAMEWORK

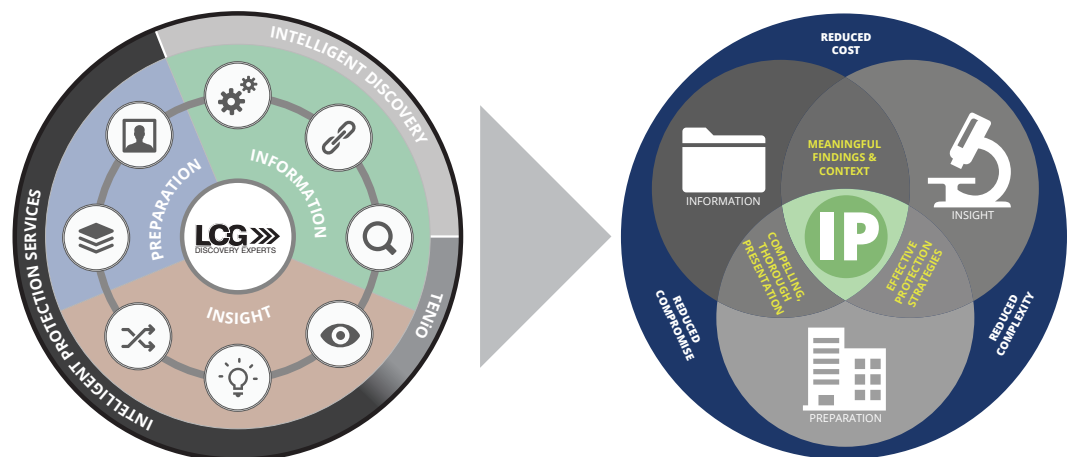

**Eliminating Cost, Complexity, and Compromise** associated with **Employee Data Theft** and **IP Protection**.

**Right now employees are stealing proprietary information, competitive advantage, and business value.** Recent studies\* detail the following statistics affecting you:

- 70% of business value is directly linked to intellectual property value
- 50% of departing employees admit to stealing intellectual property
- Of the 50% who admit stealing, 67% use the IP to secure a new job
- Of the 50% who admit stealing, 40% use the IP in their new job

**Data theft and intellectual property protection is expensive, complex, and full of compromise.** Many may promise, few actually deliver. **It doesn't have to be this way.**

LCG Discovery Experts has a rich history of delivering the right information, the right insight, and the right preparation, at the right time. Allowing businesses and law firms to prevail in protecting valuable business information and intellectual property.

The INTELLIGENT PROTECTION FRAMEWORK brings what is needed to protect valuable assets, including deep, rich investigative, behavioral, and technical expertise, all delivered to your exact requirement. The INTELLIGENT PROTECTION FRAMEWORK is the key to reduced:

- Cost: Tools, expertise, processes, and tools that lower time and overall spend
- Complexity: reports, insights, chain of custody tools, and strategies that simplify understanding, integration, and execution
- Compromise: high-performance identification of stolen data, safe protection of intellectual property, and predictable preservation of business value

LCG Discovery Experts delivers the right information, right insight, and right preparation, at the right time, to turn data theft and IP protection problems from “worry to win!”

**Contact LCG Discovery Experts to learn how to grow business value by eliminating cost, complexity, and compromise around employee data theft and IP protection.**
